_____ Home delivery to zip code _____ (additional charge, see over)

We plan to have just a few drop-off/pick-up sites, focusing instead on direct home delivery for several reasons: (1) This results in fewer miles driven per box and less traffic on the road; one vehicle delivering 10 boxes has a smaller carbon footprint than 10 cars driving to the nearest drop off and then home; (2) When we deliver directly to your home, we know you're getting your produce in the best condition possible and you can store it in optimal conditions sooner; (3) You'll save gas, time, wear and tear on your car—and we think your time has value; and (4) You won't have to remember the day and time for pickup.

As a CSA member, you agree to:

~ **Make** alternate arrangements if you are unable to pick up or won't be at home on delivery day; you can ask someone else to pick up your box for you, or you can ask the farm not to make a box for you that week (one week notice, please; no refunds for missed weeks).

~ **Return** the wax boxes each week; we'll gladly receive back clean plastic bags that are used to separate produce as well.

~ **Tell** us what you like and don't like; we need to know either way. We want you to have high expectations of us. If at any point you are not happy with our produce or service, we will gladly refund the prorated value of undelivered produce and applicable delivery charges less any discounts you received or credit card fees we incurred if that is how you paid.
